

PET FUND

Empowering Pet Lovers, Saving Lives

Version 1.0

Released 09:15 PM +07, July 26, 2025

WHITEPAPER 2025

Website: www.petfund.org | Email: contact@petfund.org

1. INTRODUCTION

Pet Fund is a groundbreaking Web3 SocialFi platform emerging from a decade-long legacy as a Web2 data analytics company. Having generated millions in revenue by selling anonymized consumer insights to Fortune 500 brands, we bring proven expertise to the crypto space. Launched on July 26, 2025, Pet Fund pivots this success to empower pet lovers, rewarding them for their data while funding pet rescues in war-torn regions like Ukraine and Syria. With a \$500,000 presale of the \$PETF token, we combine trust, transparency, and community to make a lasting impact.

2. VISION

Our vision is to create a trusted global community of pet lovers on a SocialFi platform, where their contributions drive life-saving rescues. By leveraging our data analytics heritage, AI, and InfoFi, we aim to redefine how data value is shared, ensuring profits fund verified shelters while rewarding participants with tokens, NFTs, and a sense of purpose.

3. PROBLEM AND SOLUTION

- **Problem:** Traditional data industries, including our past Web2 ventures, excluded users from the value they generated, while pet rescues in war zones lack sustainable funding. Users' data fueled corporate profits, and rescue efforts often lacked transparency.
- **Solution:** Pet Fund corrects this by rewarding pet lovers with \$PETF tokens for sharing anonymized data, sold ethically to pet food corporations. Blockchain ensures transparent donation tracking, and AI optimizes rescue efforts, creating a self-sustaining cycle of goodwill and support.

4. WHY PET FUND?

Pet Fund stands out due to its unique blend of credibility and innovation. Our decade-long track record in Web2 data analytics, serving Fortune 500 clients, establishes trust. Unlike speculative crypto projects, we offer a tangible mission—saving pets—backed by audited smart contracts (CoinSult, SOLIDProof) and GDPR-compliant data practices. Our experience ensures scalable, reliable execution, making Pet Fund a dependable choice for investors and pet lovers alike.

5. OUR GOODWILL

At Pet Fund, our heart lies in pet welfare. Born from a recognition of past ethical shortcomings, we commit to redistributing data profits to token holders and rescue operations. Every \$PETF spent supports verified shelters in war zones, with blockchain providing real-time proof of impact. Partnerships with nonprofit organizations reinforce our dedication to making a difference, not just a profit.

6. HOW IT WORKS

1. User Participation

Pet lovers join the SocialFi platform, sharing anonymized data (e.g., preferences, adoption trends) via a secure dApp.

2. Data Monetization

This data is sold to pet food brands like Purina, generating revenue through InfoFi pipelines inherited from our Web2 expertise.

3. Profit Distribution

Profits are split—part reinvested in rescues, part distributed to \$PETF holders as rewards.

4. Rescue Funding

Donations are tracked on Polygon blockchain, ensuring transparency to shelters in regions like Ukraine and Syria.

5. Engagement

AI enhances user experience with personalized content, while NFTs and staking (139% APY) incentivize participation.

7. UTILITY OF TOKEN

The \$PETF token is the lifeblood of the Pet Fund ecosystem:

- **Reward Mechanism:** Earned by sharing data, with 5% referral bonuses.
- **Staking:** Offers 139% APY, encouraging long-term holding.
- **Governance:** Influences platform features and rescue priorities.
- **NFT Access:** Unlocks exclusive Warzone Whiskers NFTs.
- **Profit Sharing:** Receives a portion of data sale profits.

8. TOKENOMICS

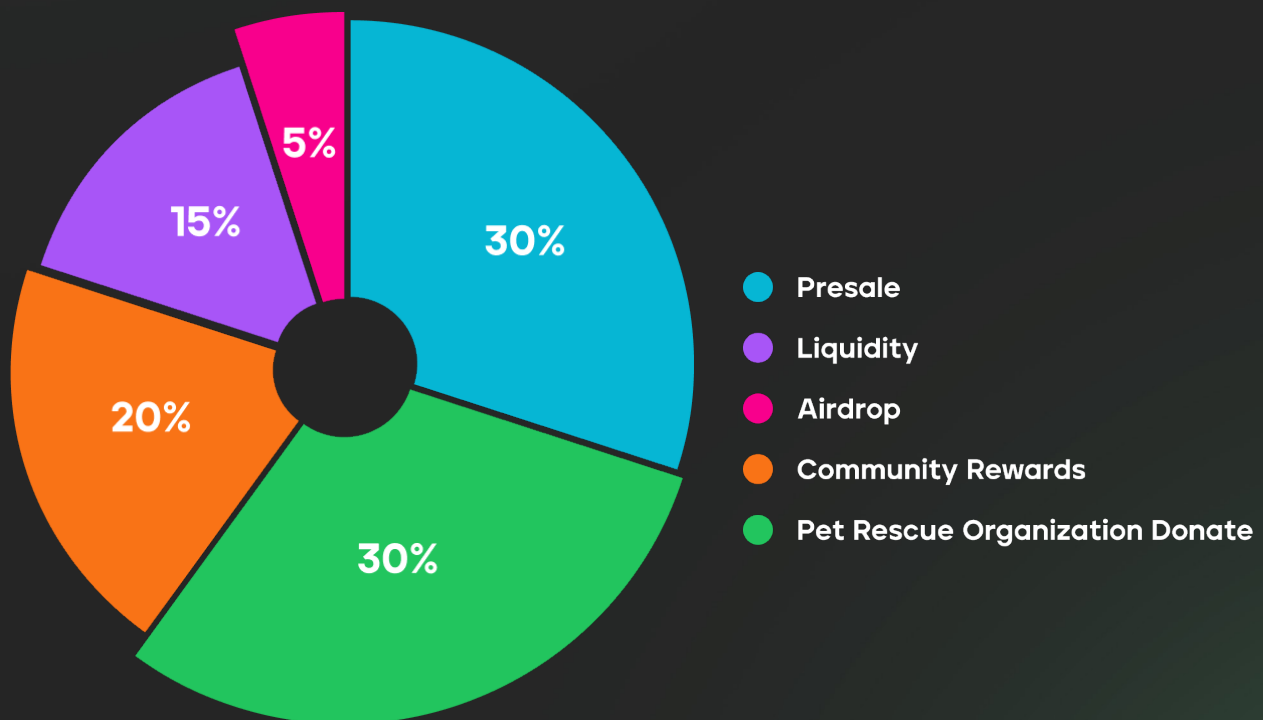

KEY METRICS

Total Supply:
1 billion \$PETF

Presale Allocation
30%
(300M tokens)

Presale Price
\$0.001-\$0.002
10 stages

ALLOCATIONS :

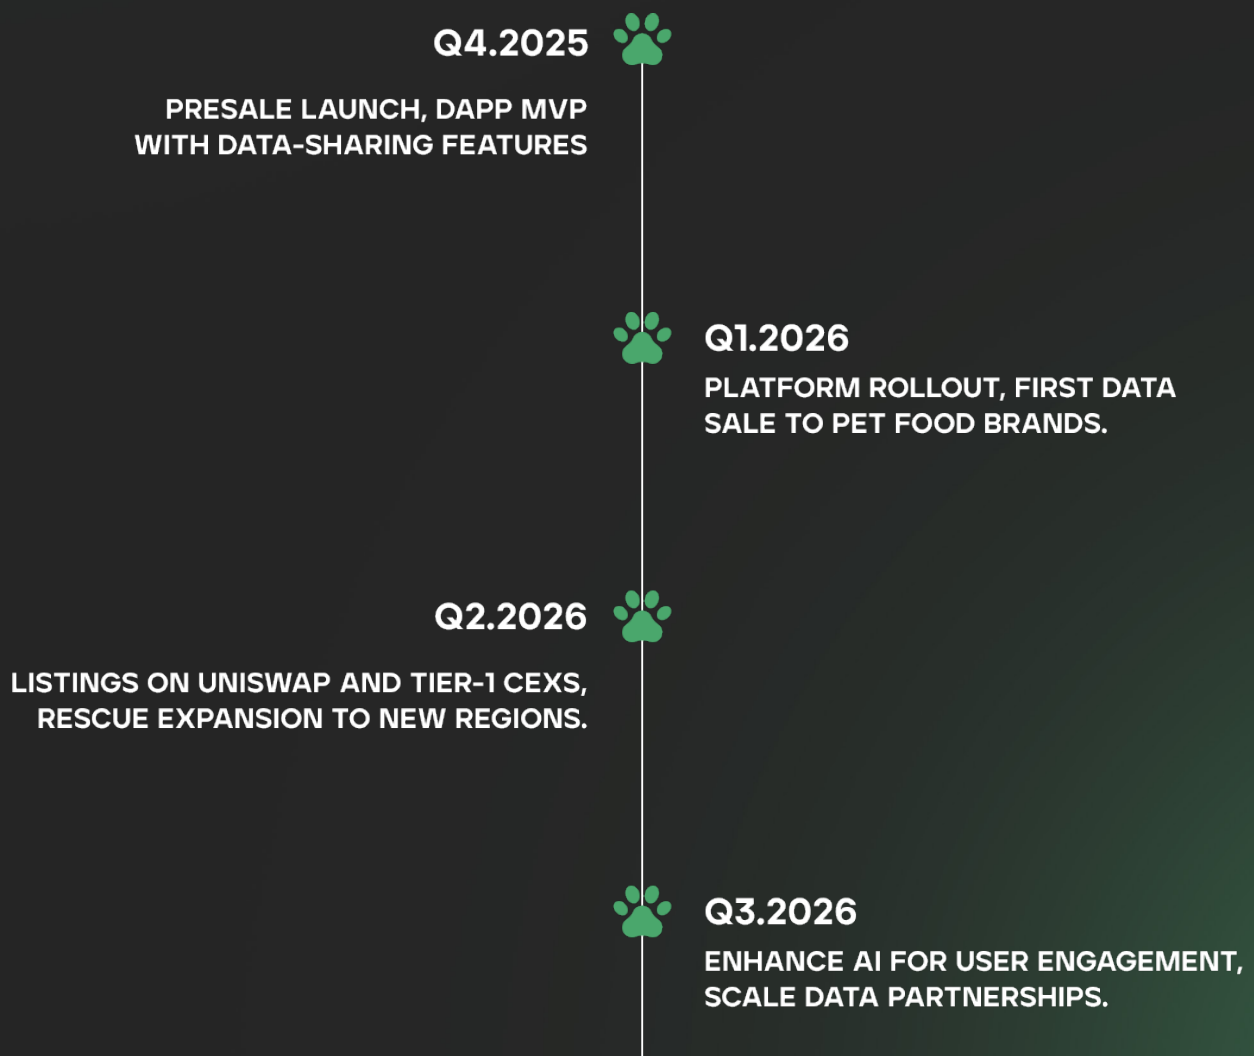

Zero Tax

**No transaction fees to ensure
trust and accessibility.**

9. LAUNCH STRATEGY

- **Presale Launch:** Begins 09:15 PM +07, July 26, 2025, on petfund.org with MetaMask integration.
- **Marketing:** Leverage Web2 credibility with campaigns on X, TikTok, and pet forums, featuring verified rescue stories.
- **Community:** Build trust via Telegram AMAs with data experts and shelter partners.
- **Incentives:** Offer giveaway to drive early adoption.
- **Transparency:** Daily updates on raised funds and rescue impacts.

10. ROADMAP

11. PROOF OF PAW

- **Presale Launch:** Over \$10M in revenue from Fortune 500 clients, audited financials available.
- **Data Ethics:** GDPR-compliant, anonymized data pipelines verified by third parties.
- **Blockchain Transparency:** Ethereum-based donation tracking, accessible via public explorers.
- **Partnerships:** Signed MOUs with nonprofits and initial contracts with pet food brands.
- **Audits:** Smart contracts certified by CoinSult and SOLIDProof.

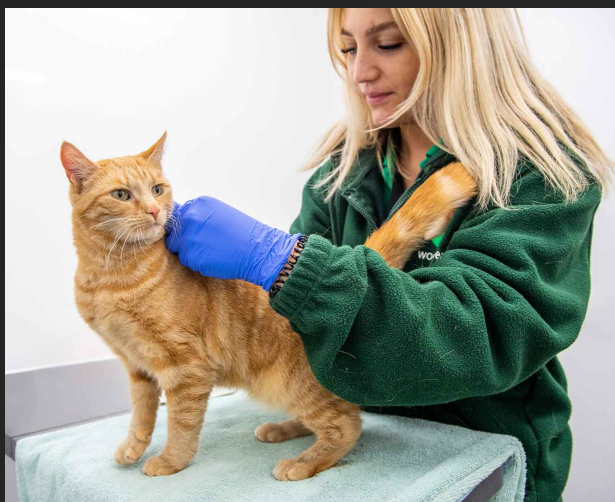

13. LEGAL DISCLAIMER

1. Disclaimers and Limitations of Liability

To the fullest extent permissible by applicable law, the issuer of the Pet Fund token (\$PETF) and any of their subsidiaries, affiliates, and licensors, along with their respective employees, agents, and contractors, make no express warranties and disclaim all implied warranties (including, without limitation, regarding any crypto tokens, smart contracts, digital assets, or decentralized applications), including the implied warranties of merchantability, fitness for a particular purpose, noninfringement, accuracy, or reliability. The issuer of Pet Fund provides no warranties for any third-party services such as wallets, marketplaces, or platforms that users may use to interact with \$PETF tokens. Users accept the inherent security risks of transacting and interacting online over the blockchain and internet. The issuer of Pet Fund is not responsible or liable for any losses, damages, or claims arising from user error (such as forgotten passwords, incorrect smart contract interactions), server failure, corrupted wallet files, unauthorized third-party access, or vulnerabilities in blockchain networks. Crypto tokens and AI-driven features are intangible digital assets that exist solely by virtue of the ownership records maintained within blockchain technology. Smart contracts operate within decentralized environments, which are experimental and subject to change. Pet Fund makes no guarantees regarding the operation or security of blockchain systems.

2. Governing Law and Jurisdiction

This agreement shall be governed and interpreted under the laws of the Seychelles. Any disputes shall be subject to the exclusive jurisdiction of Seychelles courts, and users waive any objections to such jurisdiction and venue.

3. Arbitration

You and the issuer of Pet Fund agree that any disputes arising out of or related to \$PETF shall be resolved exclusively through individual arbitration. Arbitration will be conducted according to the Centre for Effective Dispute Resolution (CEDR) Model Mediation Procedures, with mediators nominated by the CEDR.

4. No Class Action

You and the issuer of Pet Fund agree to resolve disputes individually and waive any right to participate in a class action lawsuit or class-wide arbitration. This whitepaper is for informational purposes only and does not constitute an offer to sell or a solicitation of an offer to buy securities. Investing in \$PETF involves risks, including loss of capital. Pet Fund is not liable for any financial decisions made based on this document. Participation requires compliance with local laws, and users must conduct their own due diligence. Data sharing is voluntary and anonymized, adhering to GDPR and other privacy regulations. For legal advice, consult a professional.
